

SAMPLE PRODUCTS

Pleated Filters

High quality filter media offers higher efficiency and longer service life.

Gasketing

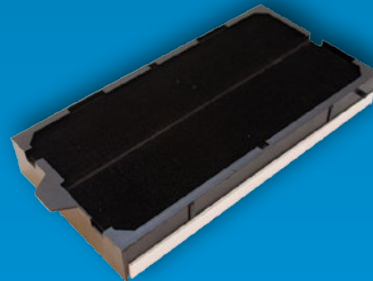

Complex thermal and air seal gaskets use PSA laminations.

Filter Bags

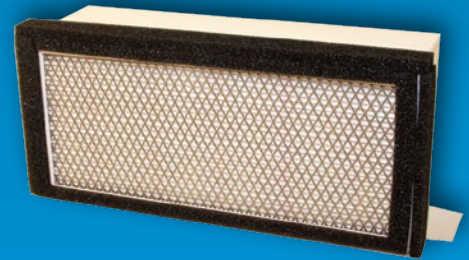

Durable toner collection bag filters

Ozone & Charcoal Filters

Reduce or eliminate odors & fumes.

HEPA Filters

Pleated filters for fine dust collection.

Burnett Process is an innovative designer, manufacturer and distributor of filter media products including Pleated Filters, HEPA Filters plus Charcoal/Ozone and Fiberglass Air filters. We also provide Soft Seal Gasketing using PSA laminations for thermal and air seal requirements, and Packaging Materials including foam and insulation products.

Processing Capabilities

Cost-effective custom filters, gaskets and packaging are made possible using in-house expertise.

- Heat Sealing
- Hot Wire Cutting
- Kiss Cutting
- PSA Laminations
- Slitting and Saw Cutting
- Steel Rule Die Cutting
- Thermal and Vacuum Forming
- Custom Metal Fabrications
- Kitting

PRODUCT APPLICATIONS

Filtration

High efficiency, throw-away, cleanable and custom filters and assemblies

Gasketing

Soft seal gaskets offer solution for thermal and air seal requirements

Packaging

Custom solutions including inserts, cushioning, shrinkwrap and heat sealing

Industrial Shark 9000 Kit

Industro-Vac Kit

LaserVac models offer either 120 or 220/240V operation.

High Efficiency Filtration Module

Shark 9000 filter offers 5 shakeouts/reuses.

Filter Bags

IndustroVac filter bags trap fine particles.

:LaserVac: is a leading brand of portable, industrial vacuums. Systems use a unique By-Pass System which cleans contaminated air with a highly efficient filtration module or filter bag. Clean air is expelled through special ventilation slots, so that no contaminated air ever reaches the motor, making it last longer and safer.

Who Uses LaserVac?

- Copier, Printer and Office Machine Service Personnel to collect toner and fine particles
- Computer Technicians to clean motherboards, fans and cases
- Drywall Carpenters and Masons to remove fine dust
- Furnace Service Professionals
- Exterminators to pick-up chemicals and compounds
- Cabinet Makers for airborne and settled dust particles

WHY CHOOSE LASERVAC?

Superior Filtering

Highly efficient at trapping sub-micron size particles such as toner, or fine dust.

ESD Circuit

Safely discharges to earth any electrical charge present or formed during pick-up.

Accessories

Accessory selection includes crevice tools, keyboard brush and brush crevice insert.
